

FEDERAL PROJECTS

A certified Small Business enterprise, PES has broad experience working for various Federal agencies including the Department of Defense. We've worked on numerous military bases across the U.S. and have experience on various types of facilities including administrative headquarters facilities, housing/barracks, maintenance shops, hospitals, aviation hangers, correctional facilities and courthouses. When designing these facilities, safety and security are important considerations. Our team is experienced in blast resistant design and mitigation, progressive collapse design and physical security requirements. Examples of our experience includes the following:

- **CSP Project Study - United States Courthouse**, Augusta, Georgia
- **CSP Project Study - E. Ross Adair Federal Building and United States Courthouse**, Fort Wayne, Indiana
- **CSP Project Study - Theodore Levin United States Courthouse**, Detroit, Michigan
